

Tune. Keep time. Play along. Say it. On every device.

Metro X is a music practice app for iPhone, iPad, Apple Watch, Android and the web. It puts a tuner accurate to 0.1 cent, a metronome you can see on your score, piano accompaniments, a sheet music reader and multi-device Sync rooms in one free download, with Voice Command in 15 languages.

Tuner to 0.1 cent

Lowest bass string to the top of the piano. Five views, strings in pure fifths, Concert A 410–480 Hz; drone and seven temperaments with Pro.

A metronome you can see

50–600 BPM, meters and subdivisions, spoken counts in 14 languages. The patent-pending ORB floats on the score and pulses with every beat.

Voice Command

“Tempo 140”, “3/4”, “A 442”, “Find Bach cello suite”. 15 languages, up to three mixed in one sentence; hands-free with “Hey Metro”. Nothing is recorded.

Score reader with IMSLP

Your PDF library, free public-domain scores, camera scanning, setlists, page-turn pedals, and markings with Apple Pencil, a stylus or a finger (Pro).

Play along with piano

Accompaniments for voice, violin, cello, flute, clarinet and horn. Steady, Practice or Expressive; 75–110% tempo; loops and a tempo ladder.

Sync rooms

Patent pending. Every phone, tablet, watch and browser in a room on one beat, even without internet. Sections turn pages together. Hosting is free.

PLANS

Free

\$0, no ads

Metronome, tuner, score reader with IMSLP and scanning, Sync rooms, Voice Command, the watch app and five accompaniments.

Metro X Pro

\$2.99/month · \$19.99/year or \$49.99 once

Every accompaniment, markings, cloud import, unlimited setlists, every sound, drone, temperaments and the pitch trace, on every device.

Schools and ensembles: Ensemble seats with an admin console, from metrox.app/for-schools.

WHO IT'S FOR

Students

A pulse they can see, a tuner that says which way to move, and a pianist to practise with before the lesson.

Teachers

One beat for a whole class from a single phone, and the same tools on every student's device.

Ensembles

Orchestras, choirs, bands and worship teams on one beat without cables or click boxes, with parts on every stand.

Working musicians

Scores, click and tuner on one iPad or tablet on stage, with page turns by pedal or by voice.
